Bus Pass Petition

I believe it is wrong for East Northamptonshire to take away the right of pensioners and disabled people to a free bus pass. The “choice” on offer between a bus pass and local bus token is no choice at all as the bus pass gives people the right to free local bus travel anywhere in the country. The token has only limited value and can only be used locally.

I support Phil Hope MP’s campaign that East Northamptonshire Council provides a bus pass to those entitled and bus tokens to those who need them.
